THIS IS A GREAT TIME TO TRANSIT FROM “HARD SKILLS” TO “SOFT SKILLS.”

The World Economy is in shambles due to a range of factors including the pandemic, trade wars, the war between Russia and Ukraine and the rising interest rates. It seems that we have already entered a severe phase of economic recession and already getting the side effects. But when the real affects start, we will come to know how much it has impacted the Indian Economy.

In this crisis, there will be winners and there will be losers. Those who re-orient their strategy will be winners. Half of the existing Fortune 500 companies will shut down by 2025. By 2030, the jobs and earning vehicles that will be adopted by our kids are not even there now.

This is a great time to transit from “Hard Skills” to “Soft Skills.”

Functional skills, human development skills, public speaking skills, human empowerment skills – these cannot be taken away by Robotics and Artificial Intelligence. The future has no room for mediocrity, and those embrace innovation first will emerge as victors.

LIKE ATTRACTS LIKE

With the competition grabbing every opportunity to enhance and upgrade, the best way to stay in the game is by learning constantly.

While COVID-19 had restricted movement across places, learning should never stop. Thanks to “Direct Selling Industry” which presents an excellent opportunity for everyone to refresh their skills and learn new ones.

You are a powerful magnet in the Universe. The magnetic power within you is more powerful than anything else in the world. So as per the magnetic laws – the Law of Attraction says, “Like Attracts Like”. “You Become What You Think About the Most”. Also “You Attract What You Think About the Most”.

Neuroscientists tell us that 95 percent of our thoughts are controlled by our preprogrammed subconscious mind. Instead of thinking, you are looking at a “movie” of the past.

Right now, the planet we call home is spinning at a rate of roughly 930 miles per hour. It is orbiting the sun at an astonishing 66,486 miles per hour.

But we are not aware of any such movement.

Where would you like to SEE YOURSELF AFTER 10 YEARS?

Time is the most basic form of human measurement is Illusionary; it is Deceptive. Time does lull people into a false sense of certainty. Humans have a penchant for “precise” measure. Work is measured in hours. Everything is linear. Time is linear. Time is like Oxygen, “Limited but Enough.”

“Tell me how you use your spare time, and how you spend your money, and I will tell you where and what you will be in ten years from now.”

~ Napoleon Hill

Where would you like you to see yourself after 10 years?

This is a wakeup call for you.

The Universe and the process of creation, attraction and manifesting are complex events that cannot be measured accurately with time. But if you try to measure these events with human time, you shall be in for a big disappointment.

UNIVERSE MANIFESTS PROSPERITY AND HAPPINESS FOR YOU IN LEAPS AND BOUNDS

This is the very reason that we do not really bother about money (also great relationships, perfect health) when it is there. But when there is a squeeze, it suddenly hits us.

All throughout our lives, we unrelentingly search for the missing things. Connect well to whatever you have, and you will experience expansion and contentment in your beings.

This Seminar shall subconsciously sow the seeds of money (abundance) consciousness into your being. Consistently working on your thoughts and taking appropriate actions, you will become more finely tuned.

Then sit back and watch how the Universe manifests prosperity and happiness for you in leaps and bounds.

“If you give your inner genius as much credence as your inner critic, you will be light years ahead of where you stand.”

~ Alan Cohen

When was the last time you compared yourself to someone else? That did not make you feel good, did it?

WAKE UP INTENTIONALLY EVERY DAY AND CONSCIOUS OF OUR MENTAL SPACE

When we are not waking up intentionally every day and conscious of our mental space, it is so easy for something else to take over.

Gremlins are always looking for a window of opportunity, and if we are not aware, they can take over the driver seat. If we can create patterns that give power to the inner gremlin, then we can also create new patterns that tame it.

How do you drive a car without having to think about all the things you need to do?

Memory; Habit; Routine; Neurons that fire together! Right!!

In our brain, there are neural pathways that create our thought patterns. When we train ourselves to think of things in a certain way, without us having to even think about it, we are already running our operating system in the patterns.

“Empty your mind, be formless, shapeless - like water. Now you put water into a cup, it becomes the cup, you put water into a bottle, it becomes the bottle, you put it in a teapot, it becomes the teapot. Now water can flow, or it can crash. Be water, my friend.”

~ Bruce Lee
